

ABOUT US

radi8er is a location-based music discovery app, developed alongside national and local artists

name origin: radio, to resonate

mission: to promote live events and empower artists to directly connect with their fans.

Connect with Community

Listener

The **radi8er** app is free to download and to stream music.

radi8er then matches a listener's musical preferences with nearby artists.

Listeners influence the sound of a city through their activity on the app.

Artist

Get your music discovered by listing your music in the **radi8er** library for free.

radi8er directly supports artists by hosting local music festivals and through profit-sharing.

Business

Businesses support their music community by streaming local music from local artists at their locations.
